FRONT-END WEB

Creativity sparked my career in visual print design, which later evolved into web and interactive design. I enjoy balancing artistic expression with technical problem-solving.

EXPERIENCE

CrowdStrike, Inc. - Senior Web Developer — 2014–2020

Web Design, Consumer facing digital assets, microsites, front-end web development.

Yardi Systems - Web/UI Design — 2011–2014

Web Design, UI design, responsive design. Branding, promotional material, HTML email. Bootstrap prototypes and dev tools.

Bonqo.com - Front-end/Web Design — 2010 –2011

UI design, site maintenance & front-end development. Branding, promotional material, blog design, Flash and After Effects. Web & Print.

Venables Bell & Partners - Interactive Design — 2009–2010

Interactive design creating ads for a wide variety of clients across multiple accounts including Audi, Intel, PG&E and Vizio.

EDUCATION

BFA Miami University — Degree, 2004

SKILLS

In my experience, skills and talents transcend the media you're currently applying them to. For example, animation is animation. If you have a sense of motion and timing, you can apply it to a flip book or a dancing hologram. So if my skill set looks like a good fit for your work, except for ingredient X, please consider that everything I know, I learned, and generally I learn new technologies quickly.
